

Ashampoo® SeeYa! (v1.53, 2002/01/01)

3 easy steps to a revolutionary new way of sharing your images!

Screenshot

3 easy steps to a revolutionary new way of sharing your images!

Ashampoo SeeYa! allows you to compress images and voice to create a compact, one-file, talking slideshow.

You can send it to your family, friends and business partners around the world!

Drag-and-Drop

the images you want to send to your friends, family, business associates or work mates!

Record your voice

to each image so that your recipients can hear your voice commenting the images you chose!

Compress

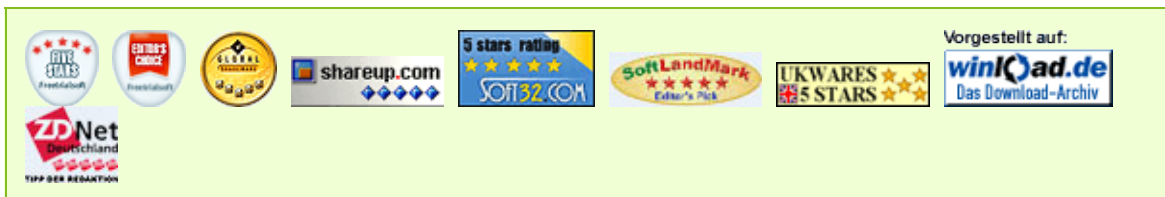

the whole thing into a small self executable or zip file and send it straight to the people you want to see and hear it!

Important hint for Ashampoo Illuminator users:

SeeYa! is already included as a wizard in Ashampoo Illuminator!

Ashampoo SeeYa! is 100% ready for Windows® XP.

All functions are supported in all Windows® versions, including Windows® 95, 98, Me, NT4, 2000 and XP!

Languages (7):

German, English, Dutch, French, Hungarian, Icelandic, English (UK)

Trial Period:

40 Days (10 days + 30 days after email registration)
